Open to Relocating Internationally

PROFESSIONAL SUMMARY

Detail-oriented Computer Science undergraduate with hands-on cybersecurity experience through CTF competitions, hackathons. Holds SEC-1 and kWAPTA certifications. Skilled in threat analysis, cryptography, and DeFi/Web3 security. Seeking a Security Operations Center (SOC) Analyst Internship to apply analytical capabilities in a real-world defensive security environment.

CERTIFICATIONS

TryHackMe - Cyber Security 101 (SEC1), Knight Squad Academy - kWAPTA Certification, Microsoft - SC900

EDUCATION

Bachelor of Science — Computer Science | Bangkok University 2025 – Present

Major: Data Science & Cybersecurity | GPA: 3.71 / 4.00

- Relevant Coursework: Network Security, Cryptography, Data Structures, Algorithms, Database Systems, Programming, Cybersecurity, Computer Networks

Bachelor of Laws (LLB) | Ramkhamhaeng University 2024 – Present

- Concurrent dual-degree study with focus on digital law and cybercrime regulation

COMPETITIONS & ACHIEVEMENTS

Securing Digital Trust: Thailand Anti-Scam Ideathon 2026 | Google Thailand 2026

- Advanced to the Final Round — selected among the Top 20 teams nationwide
- Applied threat modeling, user-trust analysis, and digital fraud prevention concepts in a competitive judged setting

NCSA AI CTF 2026 | National Cyber Security Agency (NCSA)

- Advanced to the Final Round — ranked 65th out of 1,200+ teams nationally (Top 200 finalists)
- Solved challenges in AI security, adversarial reasoning, and logical analysis under time-constrained competition

NCSA x CISCO CTF 2026 | NCSA & Cisco

- Ranked 67th nationally among participants in the NCSA x CISCO CTF 2026, placing in the Top 100 competitors.
- Demonstrated practical Offensive & Defensive Cybersecurity skills through CTF challenges involving vulnerability analysis, ethical hacking, and cybersecurity techniques.

Samsung x KBTG Digital Fraud Cybersecurity Hackathon | Samsung / KBTG 2026

- Participated in a team challenge to analyze and propose solutions for digital fraud prevention
- Applied threat intelligence and risk-based thinking to real-world cybersecurity scenarios

EXPERIENCE

Cybersecurity Intern | EGUARDIAN Thailand | August 2026 – Present

- Supported SOC operations and incident response, including security monitoring, alert analysis, and incident investigation.
- Conducted Vulnerability Assessment and Penetration Testing (VA/PT) and contributed to cybersecurity documentation, technical reports, and Terms of Reference (TOR) preparation.

AI Trainer | Outlier (Remote) | April 2026 – Present

- Evaluated and improved Thai language AI responses for accuracy, fluency, relevance, and cultural context.
- Created and reviewed prompts, annotated AI generated content, and provided structured feedback to improve LLM performance.

IT Support Intern | LINE MAN Wongnai | May 2026 – July 2026

- Built and deployed a Slack automation bot for ticket intake, reducing IT support ticket volume by 20%
- Developed an AI-powered chatbot integrated with a Notion knowledge base to streamline employee self-service support

- Authored and structured internal knowledge base documentation to improve support consistency and user experience

Crypto & Web3 Researcher / Community Moderator | Independent | Jan 2021 – June 2025

- Active since 2021 in cryptocurrency, DeFi, and blockchain ecosystems (Optimism, Arbitrum, zkSync)
- Moderated DAO and Web3 communities; created educational content explaining DeFi/crypto concepts
- Onboarded new users and answered security and usage questions within decentralized communities

IBM Z Student Ambassador | Bangkok University | April 2026 – Present

- First IBM Z Student Ambassador in Thailand. organizing workshops and driving student engagement in mainframe technology and Z Xplore platform.
- Promoted IBM Z awareness and learning across campus, earning IBM Z Concepts certification and building a growing mainframe community through events and outreach initiatives.

AWS Student Builder Group Leader | Bangkok University | June 2026 – Present

- Spearheaded the establishment and growth of the AWS Student Builder community, recruiting and leading a team of students to drive cloud computing awareness across campus.
- Organized and facilitated hands-on AWS workshops and technical events, helping students develop practical cloud skills and pursue industry-recognized certifications such as AWS Certified Cloud Practitioner.

Founder/Leader | Bu Builders Club | June 2026 – Present

- Founded and lead a cross-disciplinary student talent community with 500+ members and followers across LINE OpenChat, Instagram, TikTok, and Facebook, connecting students from technology and non-technology backgrounds.
- Organized career talks, certification preparation, internship/job opportunities, and hackathon/case competition activities, connecting students with industry professionals from leading companies such as AWS, Microsoft, and Agoda and helping members build career-ready skills.

TECHNICAL SKILLS

Programming: Python, SQL, C, Go, HTML, CSS

Cybersecurity: Web Application Security, Digital Fraud Analysis, Threat Modeling, SIEM, Threat Analysis, Incident Response

Blockchain/Web3: Cryptography, DeFi Protocols, Smart Contract Interaction, On-chain Analysis, Blockchain Security

Tools & Platforms: Git, Linux, Web Development, AI-based Platforms, Wireshark, Burp Suite, OWASP Top 10

Languages: Thai (Native), English (Professional Working Proficiency)
